

# Local Food Producers and Shop Directory

Helping you find food locally

## Dear Villagers,

Welcome to the directory of local producers and shops!

The Wittenham Vision village consultation highlighted that many people would like to buy more produce locally, but were not aware of many of the options available.

The aim of this guide is to help you to find businesses where food and drink is produced and/or sold in our local area. These are run by local people, passionate about what they do, and working hard to deliver a great product and service. They deserve our support.

I hope that you will keep this guide somewhere convenient and perhaps try out some of the producers and retailers that you haven't used before.

Clearly not every local business can be included and we might have missed some - if so please let us know. Also, we believe all details to be correct as of May 2012 - but things do change. An up-to-date list of businesses is available on the Long Wittenham web site at [www.longwittenham.com/directory](http://www.longwittenham.com/directory)

A big thank you to Tommy Nicholson who has put in considerable effort on all aspects of this guide as part of his Duke of Edinburgh project, and to Peter Greenland for helping with the design and formatting. Many thanks also to the Parish Council for paying to have the guide printed.

*Mark Pritchard and the Wittenham Vision team*

**Wittenham Vision has been developing a community led plan for the village, based on extensive and regular consultation with the people of Long Wittenham.**

Since last year we have developed and circulated an Action Plan which has since been adopted by the Parish Council, with whom we work very closely.

We established five action groups based on the main priorities emerging from the plan:

- Appearance and Sustainability
- Footpath to Clifton Hampden
- Traffic and Parking
- Village Shop / Market
- Village Hall and Leisure amenities

Whilst the general feedback from the village was that a shop was not sustainable at the moment, we are keen to help you buy food locally and this directory is intended to help with this aim.
